## **1. INLINE**

Mizuno inline range consists of a vast range of team apparel and equipment stocked at Mizuno's European warehouse. The inline range is available in many key colour & sizes and can be personalised using print and embroidery.

## **2. BESPOKE SUBLIMATION**

Sublimation is a manufacturing process that allows for limitless design possibilities. Mizuno predominately uses sublimation for on field/court playing kit. The process allows for club crest, sponsor logos, names and numbers to be embellished into the garment for no additional cost.

## **3. BESPOKE CUT & SEWN**

The term 'Cut & Sewn' is when pre-coloured fabrics are cut to shape and sewn together to create a new bespoke garment. There is still a wide range of colours to select from and logo, names and number can be applied to garments using either an embroidery or print method.

## LOGO APPLICATION

### 1. PRINT

High definition, multi-colour print application is predominately used for personalising inline & bespoke cut & sewn garments. Ideal for sponsor logos, names and numbers.

### 2. EMBROIDERY

Traditionally used for club crest on inline and cut and sewn garments.

## ARTWORK FILES

### 1 - PRINT & SUBLIMATION

When sending logo artwork for print and sublimation orders, please ensure it is saved in a layered vector format (Ai, EPS or PDF). We are happy to convert your logo artwork to a layered vector format but this will result in an additional charge.

### 2 - EMBROIDERY

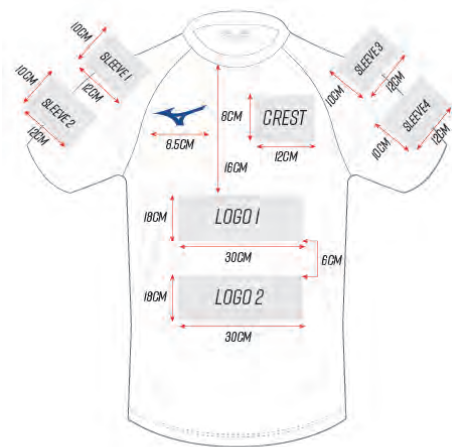

To ensure high quality and correct colours, we request that all embroidered logos are submitted in a DST file format along with a "run sheet". We are happy to convert your logo artwork to a DST file format but this will result in an additional charge.

## NAMES & NUMBERS

We recommend 20cm numbers on the back of shirts and 5cm numbers for shorts, track pants or chest and sleeve positions.

Please be aware that the sizing for inline and bespoke product is slightly different. This is dependent on the sport and activity the customer requires the product for. Mizuno recommends that the customer tries on the product before placing the order. Sizing samples can be arranged by contacting your Mizuno Sales Representative.

The measurements shown in the table are expressed in centimeters and indicate a range of average measurements between the minimum and maximum measurements for the corresponding size.

Average Height is given as a general guide. Length of products may vary, as they are adapted to meet sport specific requirements.
